## **Personal Money Management Co. Investment Product Summary**

For over 30 years, Personal Money Management Co. has offered a variety of quality investment products and services. As a result of our previous success, we are pleased to offer the following financial products to our clients.

### **\* \* \* Investment Options \* \* \***

- ☐ **A 1-Year 'Certificate of Deposit' with a Guaranteed 10% Yield** – Ideal for conservative investors or investors who are uncomfortable with market volatility.
- ☐ **The Stable Growth and Income Strategy investment** - This investment seeks to provide a relatively steady annual return of **10% plus** using a conservative mix of stocks and bonds. This investment is very similar in structure to Target Date Retirement Funds offered by several large financial institutions in that it starts out as a fixed mix of stocks and bonds. This investment is ideal for conservative investors or for the investor near or in retirement.
- ☐ **The 'Fair-Weather' Strategy investment** - This investment seeks to benefit from the stock market gains when the stock market is trending up. When the uptrend has ended or has been broken, a shift into US Treasury debt of varying maturity occurs. When the stock market upward trend resumes, a shift out of US Treasury debt and back into the stock market occurs. This option is usually chosen by investors with a moderate risk profile or for use in retirement accounts. This option offers the stability and peace of mind of a 1-Year CD with the potential capital gains of an investment account.
- ☐ **The 'All Weather' Strategy investment** - This investment is usually chosen by investors with an aggressive or high-risk profile. This strategy seeks to benefit from the stock market volatility whether the stock market is rising or declining. This investment fund has steadily gained in value over its date of inception consistently beating most US stock market indexes by a substantial margin. Like the stock market itself, the year-over-year returns may vary substantially when compared to the 'Certificate of Deposit' option which offers a guaranteed **10%** yield. It is important to keep in mind that there is greater potential of significant returns with this option, but it is accompanied by higher, above-average risks as well.

### **\* \* \* Retirement Programs \* \* \***

- ☐ **A 1-Year 'Certificate of Deposit' with a Guaranteed 10% Yield** – Ideal for conservative investors who are concerned about the safety of their money. A **'Flexible' 1-Year Certificate of Deposit with a Guaranteed 10% Yield** is available to Seniors who need the interest paid out to them on a periodic basis.
- ☐ **A Guaranteed Monthly Benefit program** – Also available for those who are in or near retirement is an investment option which offers a guaranteed monthly pension-like benefit regardless of how volatile the stock market may be. This option is usually chosen by investors with a low risk profile or for use in retirement accounts.

This option offers the stability and peace of mind of a guaranteed monthly benefit accruing from the potential capital gains of an investment account. For example, an account balance of \$125,000 in your PMMCo. retirement account will generate a monthly 'pension' payment of about \$2,000 per month.

# Key Feature #1

## Guaranteed Monthly Benefit vs. Monthly Annuity Payment

401(k) Balance	Typical Monthly Insurance Company Annuity Payment	PMMCo. Guaranteed Monthly Benefit
\$ 62,500	\$ 312.50	\$ 1,000.00
\$ 125,000	\$ 625.00	\$ 2,000.00
\$ 187,500	\$ 937.50	\$ 3,000.00
\$ 250,000	\$ 1,250.00	\$ 4,000.00
\$ 312,500	\$ 1,562.50	\$ 5,000.00
\$ 375,000	\$ 1,875.00	\$ 6,000.00
\$ 437,500	\$ 2,187.50	\$ 7,000.00
\$ 500,000	\$ 2,500.00	\$ 8,000.00

# Key Feature #2

## Return of Principal

- ▶ Typical Monthly Insurance Co. Annuity Payments can last for 5, 7, or 10 years.
  - ▶ After monthly annuity payments have ended, original principal is forfeited.
- ▶ PMMCo. Guaranteed Monthly Benefit Program lasts for 1 year, and can be renewed on an annual basis indefinitely.
  - ▶ At the end of each year, original principal remains the same.

# Feature #3 - Safety

- ▶ In the fine print of a typical insurance co. annuity contract, it states that annuity payments can be suspended by the insurance company.
  - ▶ This occurred twice in 2008 - 2009 Great Recession
    - ▶ Metropolitan Life and Northwestern Mutual Life suspended annuity payments for up to a year.
- ▶ PMMCo. Guaranteed Monthly Benefit Program has NEVER had to suspend monthly payments.
  - ▶ Not for the 2008 - 2009 Great Recession, not for the 2000 - 2002 Tech Bubble Bust

# Feature #4 - Mix-n-Match

- ▶ Mix and Match a retirement program with an investment and tailor to your needs.
  - ▶ Choose your retirement program
  - ▶ Then, choose your preferred investment with the extra money that you don't need to support your Guaranteed Monthly Benefit.
- ▶ A typical insurance company has no such feature.

# Summary and Final Thoughts

- ▶ Personal Money Management Co. offers a range of Investments
  - ▶ With annual investment returns consistently above industry average.
- ▶ and Retirement Programs
  - ▶ With Guaranteed Monthly Benefit Program that significantly exceeds what annuities or similar financial products can offer.
- ▶ that a typical insurance co. cannot match.

The property has been seized by the U.S. Government. Values are effective as of the Retrospective Date listed on this report. The objective of this assignment, and intended use was to determine the Replacement Value, Fair Market Value and Liquidation Value of the listed items. Any other use renders this appraisal null and void. This "Appraisal Report" is intended for use only by you, my clients, the Department of Justice and the Federal Bureau of Investigation and maybe shared with the courts for purpose of the case, or matters stemming from the case. Use of this report by others is not intended.

In this appraisal, value has been determined by the sales comparison approach. This method of valuation involves comparison of the property with similar items that have sold within the market that I considered most common for each item. The income approach was deemed inappropriate for the following reasons: The income approach calculates the present worth of future income or a stream of earnings. This is normally used for investment or accounting purposes and not to establish fair market value.

The scope of work for this assignment included a visiting the FBI's New Mexico office to inspect the inventory, a general inventory of assets, research and providing the client a completed report. In general, the inspection process included identifying, counting and testing the individual coins and bars. A sampling was taken from each group and tested to ensure that purity discrepancies did not exist. All of the "Monster" boxes were not counted coin for coin but weights were recorded and individual quantities of tubes and purities were sampled. Photographs were taken to document each item (In some cases that was the box/container).

## Definition of Replacement Value

Replacement value represents the amount one would have to pay to replace an item of property with either an identical one or a suitable equivalent. Since this may be based on shopping habits and/or the markets utilized, it is the estimated cost to purchase (replacement cost new or used), produce or reproduce.

## Definition of Fair Market Value

The fair market value is the price at which the property would change hands between a willing buyer and willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of relevant facts. The fair market value of a particular item of property is not to be determined by a forced sale price. Nor is the fair market value of an item of property to be determined by the sale price of the item in market other than that which such item is most commonly sold to the public, taking into account location of the item wherever appropriate.

### **Definition of Liquidation Value**

The most probable price in terms of cash, or other precisely revealed terms, for which the property would change hands under required and limiting conditions in an orderly manner, generally advertised, with reasonable time constraints, in an appropriate and relevant marketplace, with knowledgeable buyers."

### **Market**

To value an item a market (and market level) must be recognized. The market values for Precious Metals change daily based on supply and demand. Prices and premiums for finished coins and bars are also impacted by supply and demand. Additionally, Numismatic coins or collectible coins demand a higher premium or value because of their condition or rarity.

### **Limiting Conditions**

Sources are assumed to be reliable, and the appraiser does not assume responsibility for their information.

Unless otherwise stated herein, the appraisal is based only on the readily apparent identity of the items appraised. In my opinion no further guarantee of authenticity, genuineness, attribution, or authorship is necessary.

The appraised values are based upon the whole interest and possessory interest of the client, undiminished by any liens, fractional interests or any other form of encumbrance or alienation. However, this appraisal is not an indication or certificate of title or ownership. The identification of the interest has been represented to me by my client and no inquiry or investigation will be made nor is any opinion to be given as to the truth of such representation.

The value conclusions expressed herein are based on the appraiser's best judgment and opinion and are not a representative or warranty that the items will realize those values if offered for sale. The values expressed are based on current information on the date the appraisal was made. No opinion is expressed as to any future value.

The Pandemic has impacted the precious metal market and thus has in sometimes caused supply issues which not only effect Precious Metal Market prices themselves but Premiums on finished goods and coins.

I certify that to the best of my knowledge and belief:

**Report Date:** March 25, 2022

United States Marshals Service  
Attn: Mitch Varley - Senior Inspector  
Mitch.Varley@usdoj.gov  
District of New Mexico

**Reference:** Case ID [REDACTED]

As per your request, I conducted an appraisal on March 25, 2022. I physically examined the inventory on March 2<sup>nd</sup> and March 3<sup>rd</sup> at the Federal Bureau of Investigation – Albuquerque, NM in the presence of Senior Inspector Mitch Varley from the United States Marshals Service and Special Agent Grant Nixon from the Federal Bureau of Investigation.

**Effective Date:** March 25, 2022

The property has been seized by the U.S. Government. Values are effective as of the Date listed on this report. The objective of this assignment, and intended use was to determine the Replacement Value, Fair Market Value and Liquidation Value of the listed items. Any other use renders this appraisal null and void. This "Appraisal Report" is intended for use only by you, my clients, the Department of Justice and the Federal Bureau of Investigation and maybe shared with the courts for purpose of the case, or matters stemming from the case. Use of this report by others is not intended.

In this appraisal, value has been determined by the sales comparison approach. This method of valuation involves comparison of the property with similar items that have sold within the market that I considered most common for each item. The income approach was deemed inappropriate for the following reasons: The income approach calculates the present worth of future income or a stream of earnings. This is normally used for investment or accounting purposes and not to establish fair market value.

The scope of work for this assignment included a visiting the FBI's New Mexico office to inspect the inventory, a general inventory of assets, research and providing the client a completed report. In general, the inspection process included identifying, counting and testing the individual coins and bars. A sampling was taken from each group and tested to ensure that purity discrepancies did not exist. All of the "Monster" boxes were not counted coin for coin but weights were recorded and individual quantities of tubes and purities were sampled. Photographs were taken to document each item (In some cases that was the box/container).

**Definition of Replacement Value**

Replacement value represents the amount one would have to pay to replace an item of property with either an identical one or a suitable equivalent. Since this may be based on shopping habits and/or the markets utilized, it is the estimated cost to purchase (replacement cost new or used), produce or reproduce.

**Definition of Fair Market Value**

The fair market value is the price at which the property would change hands between a willing buyer and willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of relevant facts. The fair market value of a particular item of property is not to be determined by a forced sale price. Nor is the fair market value of an item of property to be determined by the sale price of the item in market other than that which such item is most commonly sold to the public, taking into account location of the item wherever appropriate.

### **Definition of Liquidation Value**

The most probable price in terms of cash, or other precisely revealed terms, for which the property would change hands under required and limiting conditions in an orderly manner, generally advertised, with reasonable time constraints, in an appropriate and relevant marketplace, with knowledgeable buyers."

### **Market**

To value an item a market (and market level) must be recognized. The market values for Precious Metals change daily based on supply and demand. Prices and premiums for finished coins and bars are also impacted by supply and demand. Additionally, Numismatic coins or collectible coins demand a higher premium or value because of their condition or rarity.

### **Limiting Conditions**

Sources are assumed to be reliable, and the appraiser does not assume responsibility for their information.

Unless otherwise stated herein, the appraisal is based only on the readily apparent identity of the items appraised. In my opinion no further guarantee of authenticity, genuineness, attribution, or authorship is necessary.

The appraised values are based upon the whole interest and possessory interest of the client, undiminished by any liens, fractional interests or any other form of encumbrance or alienation. However, this appraisal is not an indication or certificate of title or ownership. The identification of the interest has been represented to me by my client and no inquiry or investigation will be made nor is any opinion to be given as to the truth of such representation.

The value conclusions expressed herein are based on the appraiser's best judgment and opinion and are not a representative or warranty that the items will realize those values if offered for sale. The values expressed are based on current information on the date the appraisal was made. No opinion is expressed as to any future value.

The Pandemic has impacted the precious metal market and thus has in sometimes caused supply issues which not only effect Precious Metal Market prices themselves but Premiums on finished goods and coins.

I certify that to the best of my knowledge and belief:
